

In addition to the intelligence ~~which~~ required before  
a realistic attack on the <sup>political</sup> stability of the Soviet regime  
can be undertaken, there is <sup>a clear need for</sup> need ~~to mobilize the available~~  
~~planning~~ of a planning facility which will represent  
the mobilization of the best talent planning talent available.  
I will consult with the interested parties in the Departments of  
State and Defense ~~and make~~ on this matter within the near future  
and ~~make recommendations~~ give you my recommendations as to  
the ~~makeup~~ composition ~~and~~ of such a facility and the authority  
~~with which it should be given~~ to be given to it.

I am attaching a <sup>general</sup> statement of the problem ,  
an Appendix setting forth initial intelligence requirements,  
and a second appendix ~~setting forth~~ listing the ~~names~~ of private  
individuals whom it would be worthwhile to speak. These intelligence  
requirements will of course, have to be redefined from time to  
time by the planning facility that is set up.
